

## **The Truth of America's Founding - Your Heritage and Mine A Four-Lesson Seminar - September, 2017**

Here are just a few comments from past attendees:

- *With a culture departing from the intent of our foundation as a nation it is important to understand these founding documents in order to set a direction for our future.*
- *It was quite illuminating and has helped me see the Declaration of Independence and Constitution as products of a biblical worldview.*
- *I heard a number of participants express that they had gained insight they never had before regarding our nation's founding and its purpose.*
- *The information you shared made it obvious that... we are blessed to live in a Republic form of government which the Lord brought about through our founding fathers.*
- *You made it clear that there is much Christians can do to be an influence for righteousness in every generation...*
- *This class study has had a profound impact on our Pastor... He is now posting on Facebook some opinions in regards to the knowledge he has received... I call that a HUGE success!"*
- *This seminar should be offered in every Church in America!*
- *What a wonderful reminder of the Christian heritage that our nation has!*
- *Having grown up in America, we thought we knew about the foundations of our country, but this study reminded us the importance of our responsibility to research the facts and not just be content to let others tell us their opinions about history.*
