

## What is the *Institute on the Constitution*?

The *Institute on the Constitution* is a non-profit (501(c)(3)) educational organization that has embraced the goal of educating our fellow citizens on the U.S. Constitution and the Biblical founding of the United States of America. The net effect of decades of secular progressivism is that many Americans have forgotten the principles of limited Constitutional government—which is why we teach these principles through our educational outreach. The institute has several course offerings that have been conducted in all 50 states. Here is the link to our website: [www.theamericanview.com](http://www.theamericanview.com)

Attached is a syllabus that gives a general description of our new four lesson seminar "*The Truth of America's Founding - Your Heritage and Mine.*"

Through the use of primary source documents, including the Declaration of Independence, the U.S. Constitution, the Mayflower Compact, the Bible, and others, we will discover America's Biblical foundations for freedom, how far we have strayed from them, and how we can work together with Christians and other concerned citizens to restore them.

This seminar DOES NOT endorse political parties - Democrats, Republicans, or Independents. It DOES express the governmental and Biblical principles and ideas that formed our Constitutional republic!

The course is also NOT about different church denominations. Contrary to what many today believe and are told, the majority of our Founders were strong Christian people. They came from different Christian denominations with different doctrines. They overlooked these differences and worked together to establish the greatest nation in the history of the world, based on the Biblical principles on which they DID agree. We should ALL learn an important lesson from this!

Listed below are links to three short promotional YouTube videos that will give you an idea of the material in the seminar:
